HELLO, MY NAME IS KADIR GÜLEC

i am an IT enthusiast, who is really new at this career but also very interested and open to learn.

PROJECTS

ABOUT ME

Even though I work as a civil servant in a public institution in Turkey, IT has always been my passion. Finally, I got an opportunity to realize this big dream of mine and I decided to take advantage of this opportunity. Now I can describe myself as a rapidly developing IT enthusiast.

Get to know me!

Hey! It's **Kadir Gülec** and I'm a **fast learning** Software Developer located in Düren, Germany. I've done some projects to **improve** myself and to **have fun.**

Learning programming languages has been always **my Hobby** . I am really happy to be able to do my hobby as a **Job.**

My Skills

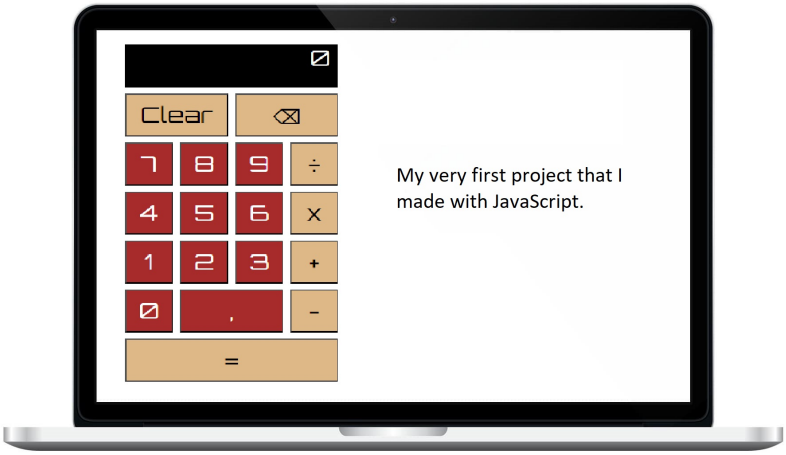
HTML **CSS** **JavaScript**

GIT **Python** **Linux**

Wordpress **SQL**

PROJECTS

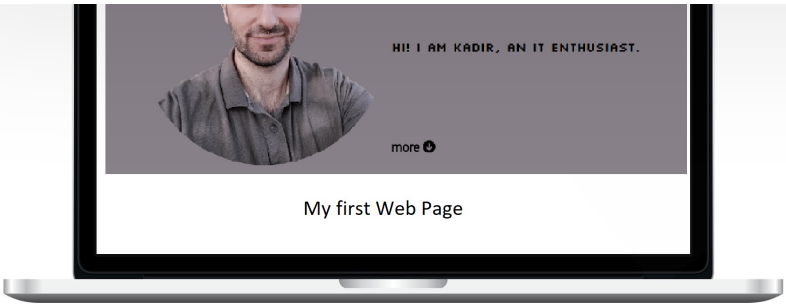
Here are some of my projects, which helped me to improve and develop my skills in programming.



Calculator

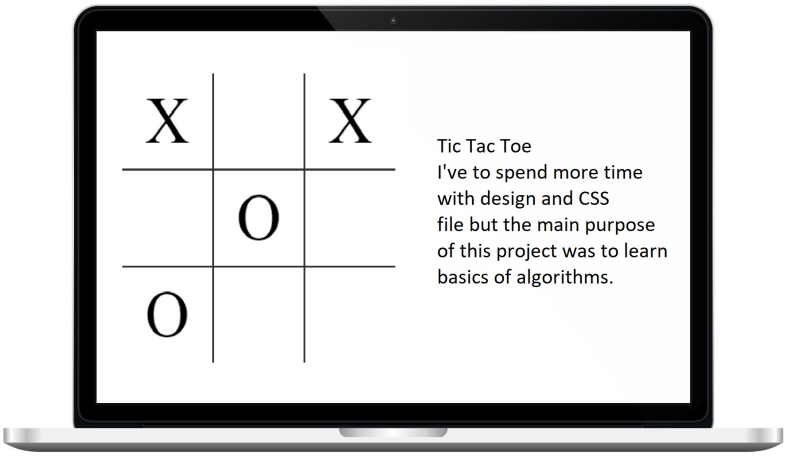
This is my first project, that I made with JavaScript. The biggest benefit of this project was learning better, how binary and decimal calculation works together.

LIVE LINK



Practice is the best way to learn, so i have immediately start to practice what I've learned and deployed a Website with the basic knowledge.

LIVE LINK



Tic Tac Toe

I like playing games but I love improving myself with developing games.
I have done this game with **JavaScript** and also with **Python** too but without any AI. **Click here** to see the **Python** project in Google Colab.
With live link you can reach to the JavaScript version.

LIVE LINK

One of my future plans is to make a portfolio website like a Windows desktop simulation and this might be the first version of it.
